After the forest fires is always also *before the forest fires*, as they say. It's important that we all work together in order to recognise and flag up future forest fires while they are starting up (within the first 15 minutes), to extinguish them within the first hour(s) and to work out a practical programme of how we may protect nature and ourselves in a better and more sustainable way. Which is why it's so important for you to be there on Saturday 11 September at 4pm. If you have some ideas and would like to make suggestions, please send them in by email to info@monchique-alerta.org by 28 August latest, in Portuguese, English or German. We'll be happy to place them on the agenda.

We look forward to seeing you there! Best wishes -

The Board
